- Responsible for Influverse Project in a multicultural team of 4 reporting directly to EM GM and CEO
- Mainly working points on stabilizing and decoupling the app architecture
- Improving frontend from old Angular 8 code
- Establishing processes to integrate new team members
- Providing future solution to reduce the monolithic aspects of the app and make it more scalable

Full-stack Web Developer Golang/Node.js
SwordHealth | September - 2021 / March 2022
- Mainly oriented for the backend development of Adobe Marketo integration with Swordhealth's system using Golang PHP and Event Driven Architecture

Full-stack Developer - JAVA/Angular
Altran - Braga/Portugal | November - 2020 / May - 2021
- Fiducial Informática Project in Portugal.
- Creating multiple back-end endpoints with Spring MVC
- Using Hibernate and JPA for data management
- Feature developement through UserStories using TFS and Zeplin
- Assigned to Allegoria/Signature Project

OTHER PROJECTS

PHP Web App
- Class management web-app for a charter school with various features that allow them to create classes and/or new establishments and manage them, as well as the ability for trainers to provide learning support material, create assignments and note the students.

Scrapper.js:
- After finding a security flaw in a e-sports coaching website, i decided to automate the exploitation using node.js and sellenium after i sent the code to the company as proof of work

Created services in .NET 3.5 / 4
- Created a service that comunicates with a SOAP server that belongs to the Portuguese Tax authority

- This was needed because the main application that was using this feature was made in FoxPro, thus obsolete and needed some extra fonctionalities

Trading Robot made in MQL4
- MQL4 instance inserted into a Docker container running Debian and Wine with an open VNC port since Wine is fully used as a GUI.

LANGUAGES

- Portuguese
- English
- French

WHAT I'M LEARNING NOW

- Docker and Kubernetes
- Angular 10+ specificities and good practices
- Solidity and ethereum SmartContracts

WORK HISTORY
